Ref: 1
C.R. 014-1

17 March 1956

MEMORANDUM FOR: Chief, Management Staff

ATTENTION : Acting Chief, Regulations Control Staff

SUBJECT : Publication of Instructions to the Field Regarding Filing of Federal Income Tax Returns.

25X1A

1. I have just noted [REDACTED], dated 9 March 1956, "Federal Income Tax." We will be fortunate indeed if this Notice reaches the field in time to be studied by the individuals it will affect and still allow them to file their income tax returns without being delinquent.

2. Getting this Notice published too late seems to be an annual occurrence. In my opinion such instructions should be dispatched from Washington during the month of December if possible, and in no case later than 15 January. I should like to have the Regulations Control Staff initiate whatever action is necessary to insure that this is done with regard to income tax returns for 1956. If there is any reason why such a Notice cannot be dispatched during the month of December, 1956, I should like to be notified not later than 1 December 1956, with reasons therefor, and the estimated date on which it can be dispatched.
